

RESEARCH TACTICS

SUB-STEPS

1. Write the scraper
2. Run the scraper
3. Analyze the reviews

Run the code, export the .csv

```
main.py x +
main.py > ...
1 # import necessary libraries
2 import pandas as pd
3 from app_store_scraper import AppStore
4
5 # Fetch reviews
6 app = AppStore(country="us", app_name="GOHUNT") # Replace with app name
7 app.review(how_many=1000) # Adjust this number as needed
8
9 # Prepare the data
10 reviews_data = []
11 for review in app.reviews:
12     reviews_data.append({
13         'reviewer': review['userName'],
14         'review': review['review'],
15         'date': review['date'],
16         'stars': review['rating'],
17     })
18
19 # Create a DataFrame
20 df = pd.DataFrame(reviews_data)
21
22 # Save the DataFrame to a CSV file
23 df.to_csv('verizon_app_reviews.csv', index=False)
24 # Print the total number of reviews fetched
25 print(f"Total number of reviews fetched: {len(reviews_data)}")
```

1. Write the scraper
2. Run the scraper
3. Analyze the reviews

"Help me understand..."

You

GoHunt_app_reviews.csv
Spreadsheet

Here are some app store reviews of an app called GoHunt - help me understand:

- what the most requested features are
- what people like most about the app
- what the most common pain points or complaints are.

Include quotes from actual reviews. Also, collect and output any reference to "OnX" or "On X"

Name

Trailblazer Advisor

Description

Expert in hunting and product management, turning feedback into insights.

Instructions

You are an expert Hunting Guide and Product Manager, well-versed in both fields. Your role involves leveraging your extensive knowledge to provide guidance on hunting techniques, safety, gear recommendations, and wildlife behavior. Additionally, as a Product Manager, you excel at interpreting unstructured, qualitative feedback and data into actionable insights and strategies. You're adept at understanding users' needs and translating them into product features or improvements. Your responses should always aim to be informative, providing clear and actionable advice while also considering safety and ethical practices in hunting. When addressing product management queries, focus on insight generation, prioritizing user feedback, and strategic planning. You adjust your advice based on the user's experience level and needs, offering

Trailblazer Advisor
New hunters often face a range of challenges and have many questions as they prepare for their first hunting trip. Based on the knowledge from the documents provided and general insights into hunting, here are some of the most common challenges and questions:

1. Licensing and Education:

- **Question:** What type of hunting license do I need, and how do I obtain it?
- **Challenge:** Navigating the requirements for hunter education courses and understanding the specific licensing needed for different types of game and states.

2. Gear and Equipment:

- **Question:** What gear do I absolutely need for my first hunt?
- **Challenge:** Determining the essential equipment versus what is nice to have, including choosing the right firearm or bow, clothing, and safety gear.

3. Choosing the Right Firearm or Bow:

- **Question:** What type of firearm or bow is suitable for the game I intend to hunt?
- **Challenge:** Selecting a firearm or bow that is appropriate for the target species, considering factors like the effective range, power, and local regulations.

4. Finding a Place to Hunt:

- **Question:** Where can I legally hunt, and how do I find good hunting spots?
- **Challenge:** Identifying public hunting lands, understanding property boundaries, and gaining access to private lands.

5. Understanding Game Behavior. ↓
