Quick favor - share your opinions on apps?

Hey guys. I'm not in Canada but I'm hoping you don't mind my post here.

I'm in grad school and am starting to get into hunting, so figured I'd kill two birds with one stone for a project and see what'd be important in a hunting app.

I've got my own opinions but I **know** y'all have strong ones too and they're probably based on more experience....Could you take ~5m to answer [a short handful of questions here](#)? That's a link to a Microsoft Forms survey.

Or, if you prefer a short chat about it, [grab some time here](#) (calendly link) and let's talk.

HUGE thanks to anybody that shares their opinions/ideas and big thanks to everyone anyway.

Hey guys. I'm not in VA but I'm hoping you don't mind my post here.

I'm in grad school out in Colorado and am starting to get into hunting, so figured I'd kill two birds with one stone for a project and see what'd be important in a hunting app.
